

AN INVITATION

TO

“SAVE THE STISTED THREE”

A public consultation on the Replacement Minerals Local Plan for Essex commenced on Tuesday 6th February.

Three of the proposed sites are in/adjoin our beautiful and tranquil village. See maps below

Any one of these sites, if chosen, will have a devastating effect on the life of our village for both residents and those non-residents who visit Stisted.

It is up to all of us to ensure that such a calamity does not happen.

**You are invited to an open drop-in meeting from 7.30 on 21 February
in Stisted Village Hall**

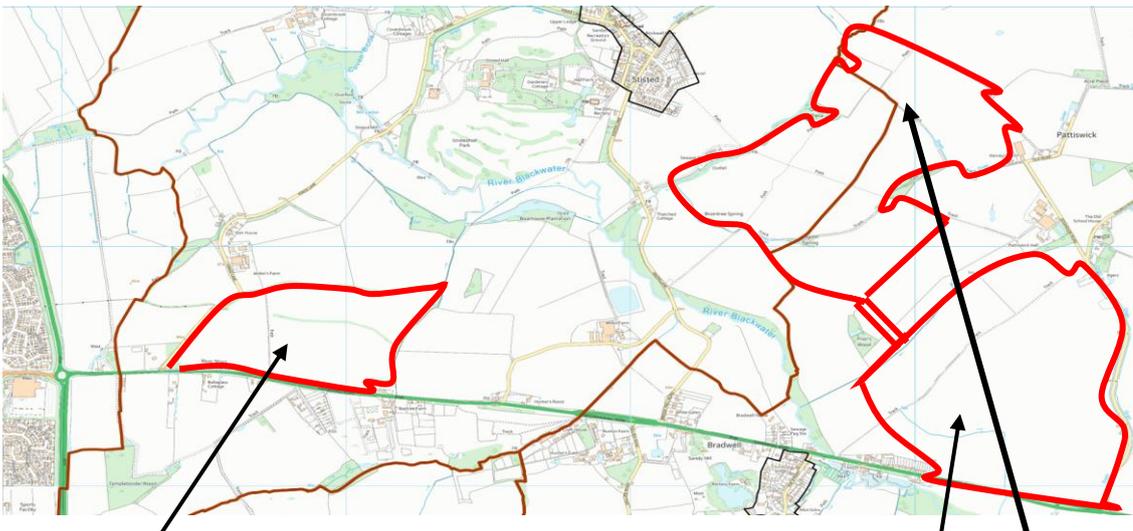

**Information will be available on the three sites, plus help with
responses.**

We all need to work together on this

The PC website will have on-going up to date information on www.stisted-pc.co.uk Go to “Planning” tab

The full consultation documents are available on www.essex.gov.uk/minerals-review

Consultation closes on 19 March. All villagers and visitors are encouraged to comment

Covenbrooke Hall Farm A89

Pattiswick Hall Farm A92 & A93
